

HOW TO BUY ?

To start the adventure of purchase in our online store, go through a few small steps, so that you and We will feel safer.

STEP 1 – REGISTRATION

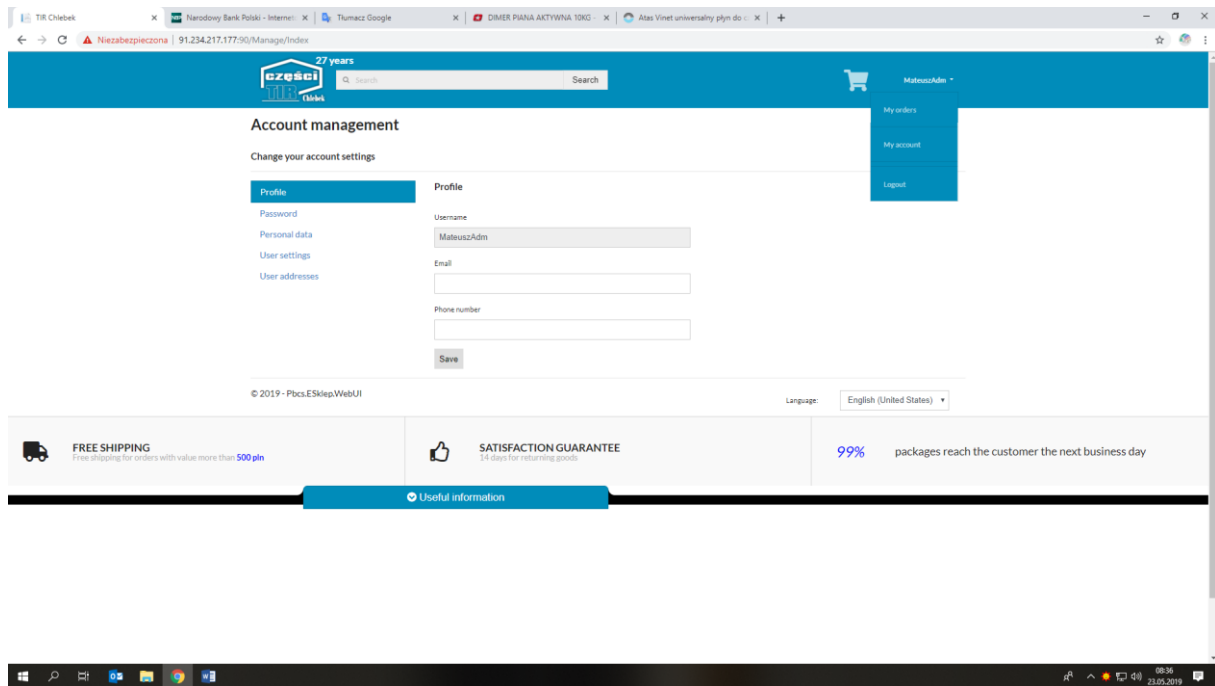

To do this, create your individual user account via the icon in the upper right corner.

The screenshot shows a web browser window displaying the registration page of the Pbc's website. The page title is "Registering" and it features a "Create new account" section. The form includes fields for "Email", "Username", "Display name", and "Password". The "Password" field has detailed requirements: it must be at least 6 and at max 100 characters long, contain at least one non-alphanumeric character, at least one digit (0-9), at least one uppercase letter (A-Z), and at least one lowercase letter (a-z). There is also a "Confirm password" field. A "Register" button is located at the bottom of the form. The page footer includes the copyright notice "© 2019 - Pbc's.ESkip.WebUI" and a language selector set to "English (United States)". The browser's address bar shows the URL "91.234.217.177:90/Account/Register".

We complete the user's data: e-mail, username, then we register using the REGISTER button.

After registration, by clicking MY ACCOUNT (right, upper corner), go to the tab: CONTINUED MANAGEMENT.

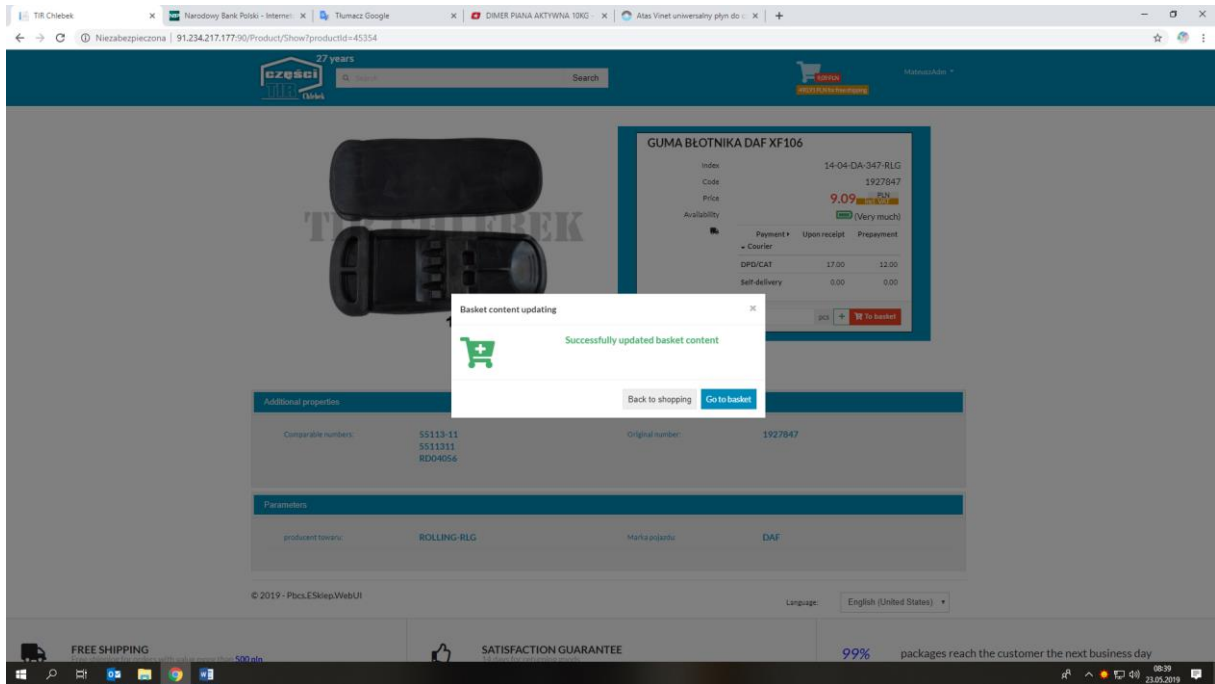

In addition to the other data needed for sending (user data, user options, user address), we provide the option: 'Save as default', which allows you to automatically complete the address data for shipment.

After completing the above steps, we receive a confirmation email, which we must activate by clicking on the sent link.

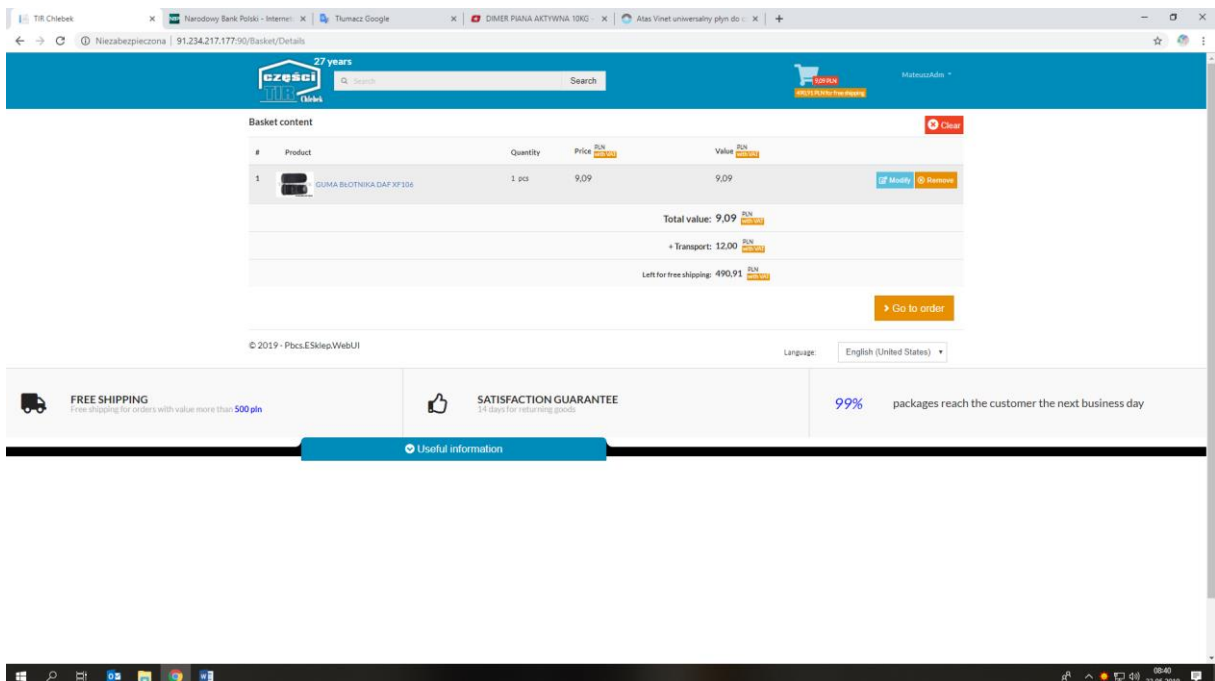

Thanks to that we are already in the full legal users of the store and we can move to the next step which is PURCHASE.

STEP 2 – PURCHASE

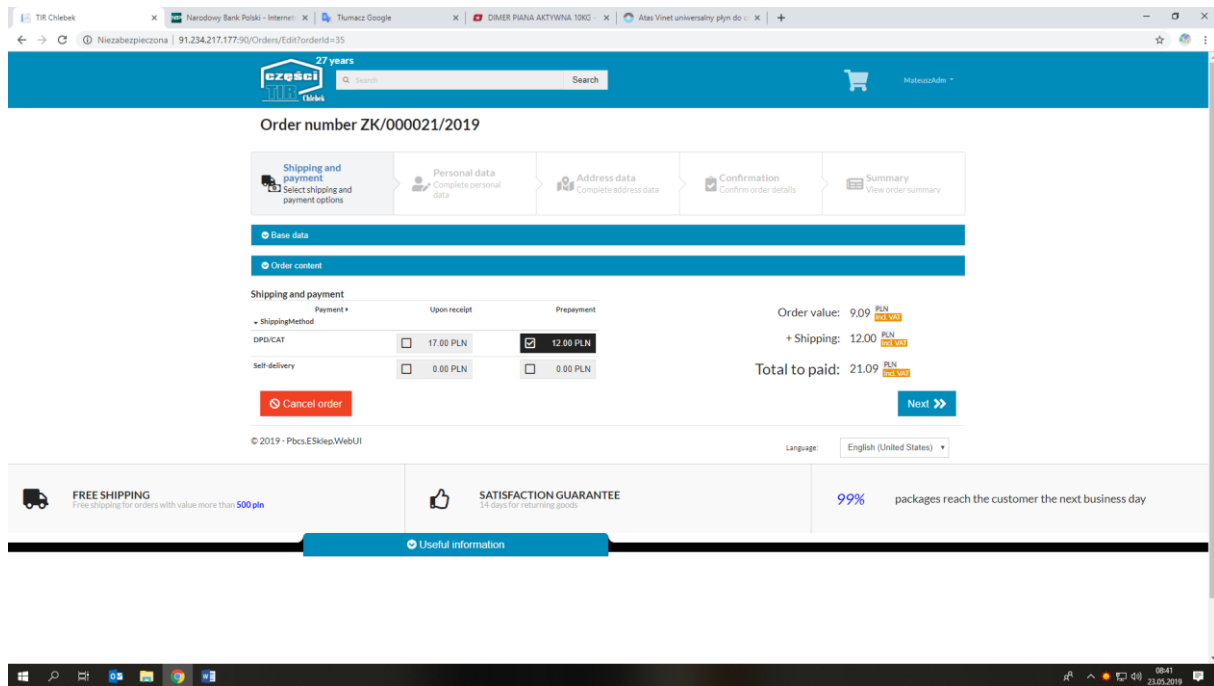

1. With the help of the "to basket" button, we choose the product that interests us. Then we can continue shopping:

or go straight to the cart's content card:

After the then personal verification with the button: GO TO ORDER, we are redirected to the current order card, where the ORDER NUMBER is automatically assigned to us.

2. At this stage, we see the page summarizing the order (read) along with the possibility of changing / choosing the method of payment and delivery.

3 By clicking 'Next' we set the status to 'Pending to complete personal data'. We get a page summarizing the order (read) along with the option supplementing personal data. The default data we display there will come from the user's profile.

4. By clicking 'next' or 'skip', we will set the status to 'Waiting for address completion'. Then we'll see a page with a summary (read only) with the option to enter addresses buyer and delivery (required unless we have chosen to pick up your own). At this stage, it will also be possible to add new addresses to your list and read these addresses and connect to orders. We will consider the address sufficient if we have a city, zip code and number home and CONTACT NUMBER.

5. By clicking 'next' or 'skip', we set the status to 'Pending confirmations' and move to the page with a read-only summary and the option to click 'Confirm'.

6. By clicking 'Approve' we set the status to 'Approved'.

7. Steps 2-6 will also allow you to cancel your order - such an order is now only to read and nothing more can be done with it.

8. Being on stages 2-6 we can go back to any previous stage. Next you have to go through each subsequent point once again.

STEP 3 – SHIPMENT

After receiving your order, a confirmation email will be sent to the e-mail address provided, to which please do not answer.

The goods are shipped within 24H from the moment of placing the order.

GOOD LUCK ! ☺
